Dear Mr. Stöver:

The Antelope Valley Air Quality Management District (District) has reviewed your communication dated August 28, 2017, requesting approval of the SATAjet 1500 B RP spray gun as equivalent to High Volume – Low Pressure (HVLP). The District hereby approves the SATAjet 1500 B RP spray gun as equivalent to HVLP under the same conditions as those specified by the South Coast Air Quality Management District in their January 20, 2017 letter (for automotive coatings only, operating pressure not greater than 29 psig and labeled accordingly, must be equipped and operated with a specified operating air micrometer).

If you have any questions regarding this letter, please contact me at (760) 245-1661, extension 6726.

Sincerely,

Alan J. De Salvo
 Deputy Director – Mojave Operations
